Day for Life 5th October 2014: Protect & Cherish Life #livelife

is a day dedicated to raising awareness about the meaning & value of human life at every stage & in every condition. Pope Francis tells us that being a protector of life is about, "protecting all creation, the beauty of the created world... It means respecting each of God's creatures & respecting the environment in which we live." The pope speaks of "protecting people, showing loving concern for each & every person, especially children, the elderly, those in need, who are often the last we think about." He emphasises the importance of the family, "husbands & wives first protect one another, & then, as parents, they care for their children, & children themselves, in time, protect their parents." And of caring for society by "building sincere friendships in which we protect one another in trust, respect, and goodness. In the end, everything has been entrusted to our protection, & all of us are responsible for it. "Let's all be builders of a better world and protect life".

Prayer leaflets are in the church porch.
