St Teresa of Avila quotes - *“Accustom yourself continually to make many acts of love, for they enkindle and melt the soul.”*

“You pay God a compliment by asking great things of Him.”

“The surest way to determine whether one possesses the love of God is to see whether he or she loves his or her neighbour. These two loves are never separated. Rest assured, the more you progress in love of neighbour, the more your love of God will increase.”

A Great Night Awaits!

From Encyclical Letter of POPE FRANCIS 'LAUDATO SI' - On Care Of Our Common Home 15. It is my hope that this Encyclical Letter, which is now added to the body of the Church's social teaching, can help us to acknowledge the appeal, immensity and urgency of the challenge we face. I will begin by briefly reviewing several aspects of the present ecological crisis, with the aim of drawing on the results of the best scientific research available today, letting them touch us deeply and provide a concrete foundation for the ethical and spiritual itinerary that follows. I will then consider some principles drawn from the Judaeo-Christian tradition which can render our commitment to the environment more coherent. I will then attempt to get to the roots of the present southern African Catholic Bishops' Conference, Pastoral Statement on the Environmental Crisis (5 September 1999). The current situation, so as to consider not only its symptoms but also its deepest causes. This will help to provide an approach to ecology which respects our unique place as human beings in this world and our relationship to our surroundings. In light of this reflection, I will advance some broader proposals for dialogue and action which would involve each of us as individuals, and also affect international policy. Finally, convinced as I am that change is impossible without motivation and a process of education, I will offer some inspired guidelines for human development to be found in the treasure of Christian spiritual experience.
